Kliyan ki gen yon kont sou sit la resevwa push + imèl nan men sit la; lòt kliyan yo resevwa imèl la sou adrès ki sou fich yo (si se yon vrè adrès, pa yon adrès pataje).

Ki lè	Ki sa ale	Pa ki moun
Ou scanner yon koli ak yon kliyan (Received items)	"Koli ou rive nan depo Miami"	Sit la (push + imèl) oswa sistèm nan (si pa gen kont)
Yon pyès sove (Consolidate) · resi a chanje	**Resi a an PDF**, apre ~2 minit (plizyè pyès = yon sèl imèl)	Sistèm prensipal la
Ou voye shipment lan ("Ship this cargo")	"Koli ou an transit"; resi PDF si li pa t ale	Sit la / sistèm nan
Tout pyès yon resi rive nan Arrivals PV	"Koli ou rive an Ayiti"	Sit la / sistèm nan
Ou make "Ready for pickup"	"Resi ou pare pou retrè" ak adrès biwo a	Sit la / sistèm nan

Ou voye yon estimasyon (Estimate, demann sit la)	Pri Avyon + Bato	Sit la (bouton "E-mail this estimate")

- Chak imèl ekri nan lang kliyan an (fransè, anglè, panyòl) epi li ekri nan istorik la (Administration → Email customers). PDF ki te voye a sove: ou jwenn li sou resi a / fakti a.
- Si yon imèl pa ka ale (pa gen imèl, imèl pataje, rezo), sistèm nan note poukisa; pou fakti yo, li eseye ankò poukont li.
- Sa mande sit la konekte (SUPABASE_URL, SITE_STAFF_EMAIL, SITE_STAFF_PASSWORD) ak fonksyon admin-mail ki ajou (redeplwaye l).

I Kijan sistèm nan kalkile pri a

Chak pyès

- **Volim (Avyon)** = longè × lajè × wotè (pous) ÷ **139** → liv.
- **Pye kib (Bato)** = longè × lajè × wotè ÷ **1728**.
- **Avyon:** yo fakti sou **pi gwo** ant pwa reyèl ak volim.

Frè

- **Avyon:** liv fakti × **$4.50** (pri estanda; kliyan ka gen pri pa li).
- **Bato:** pye kib × **$16** + **$45** manipilasyon (mete otomatikman).
- **Asirans:** valè deklare jiska $2,213 → **$50 fiks**; plis → **3.5%** (egzanp $5,000 → $175).
- **Pickup** minimòm $20 · **Repacking** minimòm $10 · **Storage:** apre 30 jou, $10 pou chak 30 jou sou resi ki rete Miami (otomatik; chanje l nan Fees & rates).
- **Total** = transpò + lòt frè + asirans − kredi (pa janm negatif).
- **Kat kredi (sou balans lan):** Square invoice 2.9% + $0.30; kat prezan 2.6% + $0.10; manyèl 2.9% + $0.30 (estimatif).

Egzanp 1: Marie Joseph, Avyon (JPF-11018)

Pyès 1: 24×18×16, 40 lb	volim 49.73 lb → fakti 49.73
Pyès 2: 30×20×20, 20 lb	volim 86.33 lb → fakti 86.33
Total liv: 136.06 × $4.50	**$612.27**
Pickup	$25.00
Handling (ajoute a men)	$35.00
Asirans (valè $800)	$50.00
Total	**$722.27**
Peman Zelle	−$300.00
Balans	**$422.27**

Egzanp 2: Roseline Pierre, Bato (JPL-11019)

30×20×20 = 12,000 pous³ ÷ 1728	6.94 pye kib
6.94 × $16	$111.04
Manipilasyon Bato (otomatik)	$45.00
Total	**$156.04**
Li bay $200 → kredi	$43.96
