X Sit kliyan (jpslogistics.me), enstalasyon app ak rezime

Sa kliyan an fè sou sit la

1. **Kreye yon kont** (oswa resevwa yon envitasyon pa imèl ak yon modpas tanporè, ki li chanje nan "Changer mon mot de passe").
2. **Swiv koli yo:** chak koli parèt ak estati li: *reçu à Miami → en transit / douane → arrivé en Haïti → prêt pour retrait*.
3. **Annoncer un colis (pre-alert):** anvan koli a rive, kliyan an bay transpòtè a, nimewo tracking transpòtè a (pa nimewo kòmand), boutik, kontni, valè, Avyon oswa Bato, ak si li vle tann lòt kòmand (jiska 3 depa). Li konfime enfòmasyon yo.
4. **Demander une estimation:** li tape bwat li yo (dimansyon, pwa, kontni). Demann nan ale nan paj **Estimate** sistèm prensipal la ("Requests from the website"): ou fikse pri a, epi klike "E-mail this estimate" (Avyon + Bato) oswa "Dismiss".
5. **Notifikasyon:** si li enstale app la, li resevwa push chak fwa estati a chanje, ansanm ak yon imèl.

Orè ak règ

- Avyon pati chak **vandredi**, Bato chak **mèkredi**.
- Enstriksyon yo bezwen **2 jou ouvrab** anvan depa a.
- Si kliyan an pa reponn, koli a pati pa **Avyon**.
- "Tann lòt kòmand" kenbe koli a jiska 3 depa.

Enstale sistèm nan tankou yon app (PWA)

- **Òdinatè (Chrome/Edge):** klike "Install the app" anba meni agòch la, oswa ikòn enstalasyon nan ba adrès la.
- **Android (Chrome):** meni ⋮ → "Install app" / "Add to Home screen".
- **iPhone (Safari):** bouton Pataje → "Add to Home Screen".
- App la sove sèlman fichye estatik; paj ak done pa janm sove sou aparèy la. San entènèt, l afiche "You are offline".

Kijan sistèm nan kalkile pri a

Chak pyès

- **Volim (Avyon)** = longè × lajè × wotè (pous) ÷ **139** → liv.
- **Pye kib (Bato)** = longè × lajè × wotè ÷ **1728**.
- **Avyon:** yo fakti sou **pi gwo** ant pwa reyèl ak volim.

Frè

- **Avyon:** liv fakti × **$4.50** (pri estanda; kliyan ka gen pri pa li).
- **Bato:** pye kib × **$16** + **$45** manipilasyon (mete otomatikman).
- **Asirans:** valè deklare jiska $2,213 → **$50 fiks**; plis → **3.5%** (egzanp $5,000 → $175).
- **Pickup** minimòm $20 · **Repacking** minimòm $10 · **Storage** apre 30 jou.
- **Total** = transpò + lòt frè + asirans − kredi (pa janm negatif).
- **Kat kredi (sou balans lan):** Square invoice 2.9% + $0.30; kat prezan 2.6% + $0.10; manyèl 2.9% + $0.30 (estimatif).

Egzanp 1: Marie Joseph, Avyon (JPF-11018)

Pyès 1: 24×18×16, 40 lb	volim 49.73 lb → fakti 49.73
Pyès 2: 30×20×20, 20 lb	volim 86.33 lb → fakti 86.33
Total liv: 136.06 × $4.50	**$612.27**
Pickup	$25.00
Handling (ajoute a men)	$35.00
Asirans (valè $800)	$50.00
Total	**$722.27**
Peman Zelle	−$300.00
Balans	**$422.27**

Egzanp 2: Roseline Pierre, Bato (JPL-11019)

30×20×20 = 12,000 pous³ ÷ 1728	6.94 pye kib
6.94 × $16	$111.04
Manipilasyon Bato (otomatik)	$45.00
Total	**$156.04**
Li bay $200 → kredi	$43.96

Pwoblèm komen ak repons

- **"The database is not reachable":** baz done a pa jwenn. Sistèm nan pa sove anyen jiskaske li retounen; di administratè a (DATABASE_URL).
- **Scanner a pa tape nan chan an:** klike nan chan tracking la anvan; scanner a se yon klavye.

- **Koli a pa gen kliyan:** ale nan Pre-alerts (lis revizyon) oswa klike Edit sou Received items pou mete kliyan an.
- **Yon pyès pa chaje sou shipment lan:** li dwe menm metòd (Avyon/Bato) ak shipment lan, epi li pa ka chaje de fwa.
- **Pa ka chanje JPF ↔ JPL:** pyès yo deja chaje, oswa resi a gen yon fakti (anile fakti a anvan).
- **Peman pi gwo pase balans:** sou yon fakti sistèm nan refize; sou "Receive payment" kliyan an, rès la vin kredi.
- **Billing pa wè yon chanjman:** tann 5 segonn epi rafrechi paj la.
- **Imèl pa pati:** gade Administration → Email customers (li di sa k manke). Kliyan ak imèl pataje oswa bloke pa resevwa.
- **Bliye kòd ou:** administratè a ka mete yon nouvo kòd nan Users & access.
- **Chif ki pa bon:** verifye pri pa liv/pye kib sou resi a (Receipt details) ak valè deklare/asirans.
- **Ede:** Activity log montre ki moun ki fè ki aksyon ak ki lè.
