Ki lè	Ki sa ale	Pa ki moun
Ou scanner yon koli ak yon kliyan (Received items)	"Koli ou rive nan depo Miami"	Sit la (push + imèl) oswa sistèm nan (si pa gen kont)
Yon pyès sove (Consolidate) · resi a chanje	**Resi a an PDF**, apre ~2 minit (plizyè pyès = yon sèl imèl)	Sistèm prensipal la
Ou voye shipment lan ("Ship this cargo")	"Koli ou an transit"; resi PDF si li pa t ale	Sit la / sistèm nan
Tout pyès yon resi rive nan Arrivals PV	"Koli ou rive an Ayiti"	Sit la / sistèm nan
Ou make "Ready for pickup"	"Resi ou pare pou retrè" ak adrès biwo a	Sit la / sistèm nan
Ou fè yon fakti (sistèm Billing)	**Fakti a an PDF**, kèk segonn apre	Sistèm Billing
Ou voye yon estimasyon (Estimate, demann sit la)	Pri Avyon + Bato	Sit la (bouton "E-mail this estimate")

- Chak imèl ekri nan lang kliyan an (fransè, anglè, panyòl) epi li ekri nan istorik la (Administration → Email customers). PDF ki te voye a sove: ou jwenn li sou resi a / fakti a.
- Si yon imèl pa ka ale (pa gen imèl, imèl pataje, rezo), sistèm nan note poukisa; pou fakti yo, li eseye ankò poukont li.
- Sa mande sit la konekte (SUPABASE_URL, SITE_STAFF_EMAIL, SITE_STAFF_PASSWORD) ak fonksyon admin-mail ki ajou (redeplwaye l).

V Kijan sistèm nan kalkile pri a

Chak pyès

- **Volim (Avyon)** = longè × lajè × wotè (pous) ÷ **139** → liv.
- **Pye kib (Bato)** = longè × lajè × wotè ÷ **1728**.
- **Avyon:** yo fakti sou **pi gwo** ant pwa reyèl ak volim.

Frè

- **Avyon:** liv fakti × **$4.50** (pri estanda; kliyan ka gen pri pa li).
- **Bato:** pye kib × **$16** + **$45** manipilasyon (mete otomatikman).
- **Asirans:** valè deklare jiska $2,213 → **$50 fiks**; plis → **3.5%** (egzanp $5,000 → $175).
- **Pickup** minimòm $20 · **Repacking** minimòm $10 · **Storage:** apre 30 jou, $10 pou chak 30 jou sou resi ki rete Miami (otomatik; chanje l nan Fees & rates).
- **Total** = transpò + lòt frè + asirans − kredi (pa janm negatif).
- **Kat kredi (sou balans lan):** Square invoice 2.9% + $0.30; kat prezan 2.6% + $0.10; manyèl 2.9% + $0.30 (estimatif).

Egzanp 1: Marie Joseph, Avyon (JPF-11018)

Pyès 1: 24×18×16, 40 lb	volim 49.73 lb → fakti 49.73
Pyès 2: 30×20×20, 20 lb	volim 86.33 lb → fakti 86.33
Total liv: 136.06 × $4.50	**$612.27**
Pickup	$25.00
Handling (ajoute a men)	$35.00
Asirans (valè $800)	$50.00
Total	**$722.27**
Peman Zelle	−$300.00
Balans	**$422.27**

Egzanp 2: Roseline Pierre, Bato (JPL-11019)

30×20×20 = 12,000 pous³ ÷ 1728	6.94 pye kib
6.94 × $16	$111.04
Manipilasyon Bato (otomatik)	$45.00
Total	**$156.04**
Li bay $200 → kredi	$43.96

Pwoblèm komen ak repons

- **"The database is not reachable":** baz done a pa jwenn. Sistèm nan pa sove anyen jiskaske li retounen; di administratè a (DATABASE_URL).
- **Scanner a pa tape nan chan an:** klike nan chan tracking la anvan; scanner a se yon klavye.
- **"DUPLICATE":** koli a te deja scanner; pa gen pwoblèm.
- **Koli a pa gen kliyan:** ale nan Pre-alerts (lis revizyon) oswa klike Edit sou Received items pou mete kliyan an.
- **Yon pyès pa chaje sou shipment lan:** li dwe menm metòd (Avyon/Bato) ak shipment lan, epi li pa ka chaje de fwa.
- **Pa ka chanje JPF ↔ JPL:** pyès yo deja chaje, oswa resi a gen yon fakti (anile fakti a anvan).
- **Peman pi gwo pase balans:** sou yon fakti sistèm nan refize; sou "Receive payment" kliyan an, rès la vin kredi.
- **Billing pa wè yon chanjman:** tann 5 segonn epi rafrechi paj la.
- **Imèl pa pati:** gade Administration → Email customers (istorik la di poukisa). Kliyan ak imèl pataje oswa bloke pa resevwa.
- **Bliye kòd ou:** administratè a ka mete yon nouvo kòd nan Users & access.
- **Chif ki pa bon:** verifye pri pa liv/pye kib sou resi a (Receipt details) ak valè deklare/asirans.
- **Ede:** Activity log montre ki moun ki fè ki aksyon ak ki lè.
